## HVAC Technician Apprentice

### Description

As a HVAC Field Technician Apprentice, you will be primarily responsible for assisting HVAC Field Technicians in the installation and repair of environmental control systems, utilizing knowledge of refrigeration theory, control systems, pipe fitting, and structural layouts. Trane Technologies affords you the opportunity to work directly for a leading manufacture giving you access to technical support, training on newest technology and comprehensive career paths with opportunity for growth. In this position you will establish & maintain a positive relationship with customers, vendors and co-workers through effective oral and written communication skills via phone, computer, and face to face. You will perform scheduled and unscheduled preventative maintenance, inspections, site surveys, and service requests including replacement, and modifications of equipment or systems as needed or requested by customers. Responsible for assisting and learning end to end testing, starting up, commissioning, and servicing on assigned projects.

### Responsibilities

- Must be able to operate a vehicle using a seat belt safely and legally
- Must be able to wear helmets, safety goggles, fall protection harness and safety boots to safely perform job duties
- Must be able to twist the trunk of your body 90 degrees in each direction
- Must be able to squat and touch the floor with both hands
- Must be able to reach your hands over your head
- Must be able to stand on concrete surfaces for extended periods, routinely up to 4 hours
- This position is highly physical and requires regular use of hands, fingers, walking, stooping, kneeling and climbing ladders. It requires employees to regularly lift and or move up to 10 lbs. and frequently lift and/or move up to 40 lbs. (may occasionally lift and/or move more than 40 lbs. with special approval.)
- Must be able to safely use a ladder with a 375lb total weight limit while wearing equipment weighing up to 50lbs.
- Must be able to maneuver access areas, as small as 30" vertical x 45" horizontal
- Must be able to access rooftops comfortably and routinely with extension and/or fixed ladders at heights of 15' to 20', and occasionally, up to 50 feet +
- This role may be exposed to variable weather conditions, moving mechanical parts, heights, risk of electrical shock, noisy operating equipment and other variable environmental conditions based on location
- 

### Qualifications

- A High School Diploma or equivalent, or certificate of completion from an accredited technical school is required.
- Preferred but not mandatory to have 2 plus years of experience in HVAC, Technical School or formal training.
- Operating knowledge of Microsoft office software and working proficiency with handheld computer (i.e. Smartphone, iPad).
